

MARCH ACTIVITIES!

GREEN! GREEN!

Celebrate Saint Patrick's Day by providing a tasty treat for your students!

Green bell peppers offer an excellent source of vitamins and minerals. Along with generous amounts of ranch dressing, your students will gobble them up!

Bell peppers also provide an excellent way to stamp attractive shamrock designs. Cut the pepper in half, side-ways, and clean out any seeds. Using green poster paint, dip the pepper in the paint and stamp it onto white paper.

A fun way to introduce a new vegetable to young children!

MARCH BEGINNINGS!

March is when the earth's renewed,
A very pleasant interlude.
A new beginning bursts all over.
Everything turns green as clover.
March wind replaced by gentle breeze,
Flowers bloom and so do trees.
March is like a great invention,
But springtime sports get my attention!

WINDY ACTIVITIES!

When March winds blow, ask your students to try some of these fun suggestions:

- Make paper airplanes and see which one flies the farthest.
- Have a balloon launch with messages inside.
- Make kites from paper lunch sacks and fly them during recess.
- Make Frisbees® from disposable plastic plates. Children can decorate them with permanent colored markers.
- Make your own bubble wands from plastic six-pack holders. See who can get the most bubbles in the air at one time. (Make a bubble solution by mixing 1/2 cup liquid detergent, 1 quart water and a couple of tablespoons of white Karo® syrup. Refrigerate overnight before using.)
