

Corn Husk Pattern

Reading Harvest

Create a corn field on the class board by cutting long strips of green paper. Label each one with a student's name and pin the strips in a row to the board. As children read books, have them fill out the requested information on a paper ear of corn.

leaf

Ask them to paste the ear inside a green paper corn husk and pin it to their corn stalk. Students will be delighted to see their corn stalks ripen with a harvest of good reading!
