

Pilgrim Bonnet and Collar

Copy this Pilgrim bonnet onto 12" x 18" white construction paper. Fold over one side, as shown. Bring the back together and staple in place.

Use hair pins to attach to the child's head. Black yarn can also be added to the bonnet and tied under the chin.

Staple back ends together.

The collar is also cut from 12" X 18" white construction paper. Fold the paper in half and cut a large circle in the center. Join the front of the collar together with a yarn bow.
