

APPLE COLESLAW

Let the children help measure $\frac{1}{4}$ cup mayonnaise, $\frac{1}{4}$ cup milk and 1 teaspoon lemon juice in a large bowl. Stir until smooth.

Demonstrate how to use a grater and have students help grate 1 large apple and 1 small cabbage. Let students add this to the mayonnaise mixture. Have the children take turns stirring the mixture. Serve right away or refrigerate for later. Makes about 8 servings.
