

CLASSROOM PEANUT BUTTER

Let the children help shell a package of unsalted, roasted peanuts. Place about a cup of peanuts in a blender. (Don't fill it too full.) Begin grinding and mixing the peanuts. Gradually add more peanuts and a little vegetable oil to the mixture. Continue mixing until it has a smooth consistency. Add a little salt for taste. Let the children spoon some of the mixture onto a paper plate. Serve the peanut butter with crackers, apple slices or a celery stick.
