

## ***CORN MUFFINS***

You will need: one box of a corn muffin mix, one egg,  $\frac{1}{3}$  cup milk and a package of cupcake liners.

Prepare corn muffin mix according to package directions. Let the children empty the mix into a bowl. They can also crack the egg into the mix and measure and add the milk. Stir the mixture by giving each child a turn. Have children place cupcake wrappers into the muffin pans and spoon in the mixture. Bake according to package directions and serve warm with student-made butter.
