

## **LEMONADE**

Children will love squeezing the lemons for this refreshing, summertime drink! You will need:

9 lemons

1 1/2 cups sugar

1 cup hot water

11 cups cold water

ice cubes

Cut the lemons in half and have the students do the squeezing using a manual squeezer. Strain and remove the seeds. Place the juice in a large pitcher. Dissolve the sugar and hot water in a separate bowl. Then add it to the juice. Add the remaining water. Mix well. Pour the lemonade over ice to serve.
