

ORANGE FLUFF

Pour 1/4 cup water into a bowl and add 2 envelopes of orange gelatin. Stir the mixture and let set for 5 minutes. Add an additional 3/4 cup boiling water and stir again until gelatin is dissolved. Pour mixture into an electric blender and add one 6-ounce can of frozen unsweetened orange juice concentrate. Blend until fluffy, then pour into small cups. Chill for at least 15 minutes. Makes 6 to 8 small servings.
