

## **POPCORN**

Put a clean white sheet on the floor. Place a hot-air popcorn popper (with the top removed) in the center of the sheet and add popcorn kernels. Have the children sit around the edges of the sheet. Ask them what they think will happen when you turn on the popcorn popper. Turn on the popcorn popper and watch as the corn pops and falls on the sheet. Children can scoop up the popcorn to eat. (About 1 tablespoon of kernels will make about 2 cups of popped corn.)

Children can place the popcorn in small plastic lunch bags. Let them sprinkle parmesan cheese, taco seasoning or cinnamon to the freshly popped corn. Seal the bags and instruct students to shake the bags to distribute the seasoning evenly.
