

## **PUMPKIN CUSTARD**

Cut the pulp from a medium-sized pumpkin into chunks. Students can scrape the seeds from the chunks. Place the chunks in a saucepan with a small amount of water. Cover and cook until the pumpkin is soft. Drain the water and cool a bit before letting the children mash the pumpkin. Let the children help add the following ingredients to four cups of mashed pumpkin: 2 eggs, 2 cups of half and half, 1 1/2 cups of sugar, 1 tsp. cloves, 2 tsp. cinnamon, 1 tsp. nutmeg. Return the mixture to the saucepan and cook for another 20 minutes. Serve small portions to the students in paper bowls.
