

## ***PUMPKIN FACES***

Soften a large package of cream cheese. Add a few drops of yellow food coloring and a couple of drops of red food coloring. Let a student stir the cream cheese until it becomes a consistent orange color.

Let each student toast his or her own half English muffin. Instruct the students to spoon a portion of the cream cheese onto their muffins. Give each child a plastic knife, a celery stick and several raisins. Tell each child to spread the cheese with the knife and place the piece of celery at the top to resemble a stem. Students can use the raisins to make jack-o'-lanterns faces.
