

SNOW CONES

You'll need a snow cone machine, crushed ice maker or food processor to make these snow cones. The only ingredients are:

A large bag of crushed ice

1 can of frozen grape juice (12 oz.)

1 can of water

Make some "snow" ahead of time and store it in the freezer. Then have each child take turns using the snow cone machine or food processor to make snow from crushed ice.

Dilute the frozen juice concentrate with 1 can of water. Have children spoon the snow into paper cups. Let the children help pour some grape juice over the ice and eat it with plastic spoons.
