

WATERMELON ICE POPS

Students will love making their own cool treats! You will need:

1 cup of seedless watermelon chunks

1 cup orange juice

1 cup water

Place all of the ingredients in an electric blender and mix on high speed. Pour the mixture into small paper cups and place them in the freezer. When they are partially frozen, insert small plastic spoons for handles. When completely frozen, dip the cups into hot water to remove the frozen treats.
