

Medical and other emergencies

Minor cuts and abrasions suffered while at the daycare will receive proper care, Specifically, they will be washed with soap and warm water and properly bandaged. Injury and treatment will be logged and I will tell you how and when the injury occurred. I am also required to log any injuries I observe on your child which have occurred outside my care.

If a medical emergency arises I will try to contact a parent first, unless doing so endangers the child's life. In that case I will take necessary steps, putting the child first (calling 911, doctor, poison control, etc.). If need be, your child will be transported to Saint Anthony Hospital and I will contact you from there. Parents are responsible for all costs involved in emergency medical treatment.

In the event of a fire, we would evacuate the house immediately (3 exits available) and gather at the neighbor's tree. This will be practiced monthly so the children are familiar with the procedure.

If severe weather arises and a tornado warning is issued, we will proceed to the basement where the children will crouch and cover their heads. This will also be practiced at least monthly.

Daily schedule

Below is a basic outline of our day. The times may vary (with the exception of meal times).

6:30am-7:00am arrival begins, quiet freeplay
7:00am-7:30am breakfast/diaper
