

# SOCCER BULLETIN BOARDS!

## GOALS FOR THE FUTURE!

Motivate your students to examine their future goals with this easy bulletin board. Enlarge these cute soccer characters with an overhead projector and display them on the board. Children can write poems or creative stories about their goals for the next school year or occupations they may wish to have when they are grown.

## KICK-OFF FACTS!

Children can review their multiplication tables with this simple bulletin board. Display a large soccer ball made from black and white construction paper. Write multiplication problems on each section of the ball. As a class, review the answers after the students have worked the problems at their desks.
