

Umbrella and Raindrop

Use these cute patterns to make a variety of matching activities. Math problems or questions can be written on paper raindrop and answers on patterns of the umbrella.

You might also like to use the patterns to motivate students to write creatively! Write rainy day story starters on paper raindrop. Children choose a raindrop and write an appropriate story. Paper umbrellas can be awarded to students when they complete the creative writing exercise. Display the papers along with the raindrops and umbrellas on the class board.
