

Woven Hearts!

This woven heart can be given to Mom for a simple Mother's Day gift. Fill it with small candies, notes of appreciation or wild flowers.

Cut two patterns from pastel colored construction paper. Fold each pattern in half and make three cuts down the center. Hold one piece in each hand and carefully weave the first piece in one hand over and under the piece in the other hand. Continue weaving each piece the same way. Attach a small paper handle to the top. When you are finished, your woven heart will look like the one above.
