

Abraham Lincoln

Activity Cards

Teachers: Discuss with your students the history and facts about both George Washington and Abraham Lincoln. Provide these cards for an informative center activity about the two presidents.

Cut out each activity card and mount on colored posterboard. Ask individual students to take the cards to their desks and match the fact cards to the appropriate president card. Two students might like to time one another to see who can match all the cards correctly in the least amount of time.

(Washington cards can be found on pages 60 and 61.)
