

Snowman Pattern

Award one pattern piece to each child as assignments are completed.

Start with the larger bottom section, next the middle section with arms and then the scarf. Next, add the head, mittens, broom, hat and finally the carrot nose. Children can glue their snowman pieces to a large sheet of dark blue construction paper.

When all the pieces are in place, the students can add their own jolly faces with crayons or markers. Display the snowmen on the class bulletin board.
